

Juan Pablo Jiménez Heredia

Fullstack Developer / Software Engineer

Bachelor of Engineering in Systems and Informatics

I'm interested in the intersection of development, creativity and design.

Location

 Medellín, Colombia

 juanpablojimenez.dev@gmail.com

 [juanpablojimenez.dev](https://github.com/juanpablojimenez.dev)

Skills

PROGRAMMING LANGUAGE

JavaScript (Advanced), TypeScript (Advanced),
HTML (Advanced),
CSS (Advanced).

FRAMEWORKS & TOOLS

React (Advanced), NextJS (Advanced),
Jest (Advanced), NodeJS (Advanced),
Git, GitHub, Azure DevOps, Jira, Figma,
GCP, AWS and Material UI.

SOFT SKILLS

Strong communication and collaboration, Problem-solving and critical thinking, Adaptability to new technologies and methodologies, Attention to detail in code quality and design, Teamwork and interpersonal skills.

Languages

SPANISH (NATIVE)

ENGLISH (C1 ADVANCED)

Achievements

MENTOR

[Girls Programming Club](#)

Guide and support young female students in foundational programming concepts, algorithms, and problem-solving, promoting inclusion and confidence in tech.

FOUNDER

[Competitive Programming Club](#)

Established and lead a company-wide community to practice and compete in algorithmic challenges, fostering technical excellence and peer learning.

Work experience

Universidad Pontificia Bolivariana — Teacher

 Nov 2025 - Today

FullStack Development Diploma

React **HTML** **CSS** **Git** **JavaScript** **Firebase** **Bash** **Node JS** **Teaching** **Security**

- Designed and delivered an intensive, fundamental-first curriculum for the **Fullstack Development diploma** course from Sapiencia Estud-IA program, focusing on building long-term developer adaptability over short-term framework proficiency.
- Shifted the primary instructional focus to Git, Bash, and foundational JavaScript to ensure students master version control, command-line efficiency, and core language mechanics—skills that are transversal across any modern tech stack.

Gorilla Logic — Full Stack Developer

 Aug 2025 - Today

Envision Pharma Group Project

TypeScript **Next.js** **Figma** **React** **Node JS** **Vitest** **Sentry** **AI** **Spring Boot** **Docker**

- Developed and delivered high-impact new features** for a high-functionality application using **React**, **Next.js**, and **TypeScript**, significantly enhancing the user experience for a large user base.
- Contributed to the **full software development lifecycle** (SDLC), including new feature development, bug resolution, and ensuring application stability using Sentry for error detection and issue tracking.
- Integrated and managed cloud services, including **AWS Cognito** for user authentication/authorization and **AWS SES** for email services, ensuring secure and scalable application features.

Globant — Front-End Developer

 Jan 2024 - Aug 2025

OCLC - YUI Removal / Project

React **Zustand** **Vitest** **React Testing Library** **RHF** **Zod** **MUI** **Node.js** **TypeScript**

- Architected, developed, and maintained user-facing features using React and Next.js, following Atomic Design principles to build scalable components and microfrontends. Wrote clean, well-typed TypeScript code, integrated with RESTful APIs in close collaboration with backend teams.
- Implemented state management with Zustand and developed dynamic, validated forms using React Hook Form and Zod. Ensured high code quality through comprehensive testing (Vitest, React Testing Library) and maintained full compliance with accessibility standards (WCAG AA/AAA).

OCLC - NextJS Migration / Project

TypeScript **Next.js** **React** **React Testing Library** **Jest** **MUI** **HTML** **CSS** **Git**

- System Modernization & Architecture:** Migrated legacy YUI components to React and NextJS, refactored the codebase to fit modern architecture, and adopted microfrontend structures for modular development. Optimized performance across the application. Follow an Agile lifecycle while tracking progress in Jira.
- UI Enhancement & Global Accessibility:** Integrated Material UI, ensured WCAG AA/AAA compliance, added RTL support, and leveraged AI-assisted tools like Cursor for efficient design and development collaboration.

Work experience

Globant — Front-End Developer

Jan 2024 - Aug 2025

OCLC - NextJS Migration / Project

TypeScriptNext.jsReactReact Testing LibraryJestMUHTMLCSSGit

- System Modernization & Architecture: Migrated legacy YUI components to React and NextJS, refactored the codebase to fit modern architecture, and adopted microfrontend structures for modular development. Optimized performance across the application. Follow an Agile lifecycle while tracking progress in Jira.
- UI Enhancement & Global Accessibility: Integrated Material UI, ensured WCAG AA/AAA compliance, added RTL support, and leveraged AI-assisted tools like Cursor for efficient design and development collaboration.

AON - COI Web App / Project

TypeScriptJavaScriptES6ReactJestGitHTMLCSSHuskyWPONext.js

- Migrated a complex Next.js application into a unified React architecture, improving system consistency and performance as part of the Data Ingestion team. Collaborated with designers and stakeholders to deliver scalable, reusable components aligned with client requirements and clean architecture principles.
- Actively improved code quality by identifying and fixing critical bugs, optimizing component performance, and championing best practices through thoughtful code reviews and team collaboration.

Mateus Abogados SAS — Full Stack Developer

Jun 2022 - Jan 2024

Website design, implementation & deploy / Project

JavaScriptReactFigmaGCPNodeJSSQLSEOLinuxGitHub ActionsDocker

- Full-Stack Development & UX Design: Designed wireframes, built user-centric web interfaces, and integrated third-party APIs while ensuring performance and modern web standards.
- Cloud Infrastructure & Automation: Deployed a secure GCP server, created automation scripts for Google Sheets, and adapted quickly to new tools to streamline development and operations.

Education & Certifications

Universidad Pontificia Bolivariana2019 – 2024

Bachelor of Engineering in Systems and Informatics

Graduated with honors, GPA: 4.5/5.0

React - The Complete Guide (Udemy)2024

Object-oriented Programming in JavaScript (Udemy)2024

Web Design Accessibility Certificate (Udemy)2025

The Git & Github Bootcamp2025

Certified in Cybersecurity (CC)2023
